Please note

In the codebook, each frequency table consists of a variable name, question, and frequency table. The first column, RESPONSE, indicates response categories and the second column, PUNCH, is a value for each response category. The third and fourth columns, FREQ and PERCENT, show the number of individuals and percentage of individuals belonging to a specific response category. The last column VALID % is the percentage of individuals who are assigned to a specific response category without missing data, such as DK (Don't know), NA (No answer), and NAP (Not applicable).

q1 Quality of life for individuals and region

1. The quality of life refers mainly to psychological satisfaction and emotional happiness derived from life's conveniences, safety, intimacy, fulfillment, sense of belonging, and trust which cannot be achieved through quantitative growth alone such as economic growth and increase in income. Do you believe that we have realistically reached a stage of pursuing the quality of life for a more meaningful life both personally and as a region?
