## Study Description

<i>Study Title:</i>	Survey on the Computer and Internet Usage of Youths in Korea
<i>Fieldwork Dates:</i>	June, 2005 ~ July, 2005
<i>Principal Investigator:</i>	Park, Young-kyun
<i>Producers:</i>	Korea Institute for Youth Development
<i>Sample Type:</i>	Multi stage area cluster sampling
<i>Fieldwork Institute:</i>	Korea Institute for Youth Development
<i>Fieldwork Methods:</i>	Face to face interview
<i>Number of Cases:</i>	2,149 (valid)
<i>Geographic Coverage:</i>	South Korea except for Jeju
<i>Universe:</i>	Middle and high school students (currently enrolled in June 2005)
<i>Distributor:</i>	Korea Social Science Data Archive (KOSSDA)

## Please note

In the codebook, each frequency table consists of a variable name, question, and frequency table. The first column, RESPONSE, indicates response categories and the second column, PUNCH, is a value for each response category. The third and fourth columns, FREQ and PERCENT, show the number of individuals and percentage of individuals belonging to a specific response category. The last column VALID % is the percentage of individuals who are assigned to a specific response category without missing data, such as DK (Don't know), NA (No answer), and NAP (Not applicable).

**code      Respondent: School ID**

RESPONSE	PUNCH	FREQ.	PERCENT	VALID %
Ahyeon Middle School	1	35	1.6	1.6
Hoseo Middle School	2	35	1.6	1.6
Dongan High School	3	70	3.3	3.3
