Study Description

<i>Study Title:</i>	Survey on the Living Conditions of the Poor in Busan, Ulsan, and Gyeongnam Areas, 2nd Wave
<i>Fieldwork Dates:</i>	29 December, 2005 ~ 28 February, 2006
<i>Principal Investigator:</i>	Park, Keong-Suk
<i>Producers:</i>	Institute for East Asia Studies at Dong-A University
<i>Sample Type:</i>	Multi stage cluster sampling
<i>Fieldwork Institute:</i>	Institute for East Asia Studies at Dong-A University
<i>Fieldwork Methods:</i>	Face to face interview with self administered
<i>Number of Cases:</i>	969 (target) / 780 (valid)
<i>Geographic Coverage:</i>	Busan, Ulsan, and Gyeongnam
<i>Universe:</i>	Low income class (recipient of livelihood protection system)
<i>Distributor:</i>	Korea Social Science Data Archive (KOSSDA)

Please note

In the codebook, each frequency table consists of a variable name, question, and frequency table. The first column, RESPONSE, indicates response categories and the second column, PUNCH, is a value for each response category. The third and fourth columns, FREQ and PERCENT, show the number of individuals and percentage of individuals belonging to a specific response category. The last column VALID % is the percentage of individuals who are assigned to a specific response category without missing data, such as DK (Don't know), NA (No answer), and NAP (Not applicable).

p2attr Whether or not there is respondent loss in survey

RESPONSE	PUNCH	FREQ.	PERCENT	VALID %
Lost	0	189	19.5	19.5
