Study Description

<i>Study Title:</i>	Survey on the Living Conditions of the Poor in Busan, Ulsan, and Gyeongnam Areas, 3rd Wave
<i>Fieldwork Dates:</i>	January, 2006 ~ January, 2006
<i>Principal Investigator:</i>	Park, Keong-Suk
<i>Producers:</i>	Institute for East Asia Studies at Dong-A University
<i>Sample Type:</i>	Multi stage cluster sampling
<i>Fieldwork Institute:</i>	Institute for East Asia Studies at Dong-A University
<i>Fieldwork Methods:</i>	Face to face interview with self administered
<i>Number of Cases:</i>	780 (target) / 618 (valid)
<i>Geographic Coverage:</i>	Busan, Ulsan, and Gyeongnam
<i>Universe:</i>	Low income class (recipient of livelihood protection system)
<i>Distributor:</i>	Korea Social Science Data Archive (KOSSDA)

Please note

In the codebook, each frequency table consists of a variable name, question, and frequency table. The first column, RESPONSE, indicates response categories and the second column, PUNCH, is a value for each response category. The third and fourth columns, FREQ and PERCENT, show the number of individuals and percentage of individuals belonging to a specific response category. The last column VALID % is the percentage of individuals who are assigned to a specific response category without missing data, such as DK (Don't know), NA (No answer), and NAP (Not applicable).

area	Survey area	RESPONSE	PUNCH	FREQ.	PERCENT	VALID %
