Korean General Social Survey

The Survey Research Center (SRC) at Sungkyunkwan University is currently conducting the Korean General Social Survey (KGSS), a nationwide survey research project implemented each year. The purpose of this survey is to collect primary social data that can be widely used in cross-national comparative studies. Most Questions in this survey concern your opinions on some of the basic political, economic, and social phenomena. The survey also includes your opinion of National Identity, the 2003 modular topic of the International Social Survey Program (ISSP), in which 40 countries all over the world are participating currently.

Since We have selected our respondents in a way to best represent the people in this country, the result of this survey is likely to lose representativeness if you do not respond to this interview. We would like to ask your sincere cooperation so that this survey could produce valuable research data. Your answers will be kept strictly confidential and anonymous. We would really appreciate if you take time to answer every question in this survey.

Korean General Social Survey

The Survey Research Center (SRC) at Sungkyunkwan University is currently conducting the Korean General Social Survey (KGSS), a nationwide survey research project implemented each year. The purpose of this survey is to collect primary social data that can be widely used in cross-national comparative studies. Most Questions in this survey concern your opinions on some of the basic political, economic, and social phenomena. The survey also includes your opinion of Citizenship, the 2004 modular topic of the International Social Survey Program (ISSP), in which 39 countries all over the world are participating currently.

Since I have selected our respondents in a way to best represent the people in this country, the result of this survey is likely to lose representativeness if you do not respond to this interview. I would like to ask your sincere cooperation so that this survey could produce valuable research data. Your answers will be kept strictly confidential and anonymous. I would really appreciate if you take time to answer every question in this survey.

(Web) <http://www.src.re.kr>

The Survey Research Center (SRC) at Sungkyunkwan University is currently conducting the Korean General Social Survey (KGSS), an annual national sample survey funded by Korea Research Foundation (KRF). The purpose of this survey is to collect primary social data that can be widely used in cross-national comparative studies. Most Questions in this survey concern your opinions on some of the basic political, economic, and social phenomena. The survey also includes your opinion of work orientation, the 2005 modular topic of the International Social Survey Program (ISSP), in which 39 countries all over the world are participating currently.

Since we have selected our respondents in a way to best represent the people in this country, the result of this survey is likely to lose representativeness if you do not respond to this interview. We would like to ask your sincere cooperation so that this survey could produce valuable research data. Your answers will be kept strictly confidential and anonymous. We would really appreciate if you take time to answer every question in this survey.

The Survey Research Center (SRC) at Sungkyunkwan University is currently conducting the Korean General Social Survey (KGSS), an annual national sample survey funded by Korea Research Foundation (KRF). The purpose of this survey is to collect primary social data that can be widely used in cross-national comparative studies. Most Questions in this survey concern your opinions on some of the basic political, economic, and social phenomena. The survey also includes your opinion of the role of the government, the 2006 modular topic of the International Social Survey Programme (ISSP), in which 40 countries all over the world are currently participating.

Since we have selected our respondents in a way to best represent the people in this country, the results of this survey are likely to lose representativeness if you do not respond to this interview. We would sincerely like to ask your cooperation so that this survey could produce valuable research data. Your answers will be kept strictly confidential and anonymous. We would really appreciate if you take time to answer every question in this survey.

(Web) <http://www.src.re.kr>

The Survey Research Center (SRC) at Sungkyunkwan University is currently conducting the Korean General Social Survey (KGSS), an annual national sample survey funded by Korea Research Foundation (KRF). The purpose of this survey is to collect primary social data that can be widely used in cross-national comparative studies. Most Questions in this survey concern your opinions on some of the basic political, economic, and social phenomena. The survey also includes your opinion of sports and leisure, the 2007 modular topic of the International Social Survey Programme (ISSP), in which 40 countries all over the world are currently participating.

Since we have selected our respondents in a way to best represent the people in this country, the results of this survey are likely to lose representativeness if you do not respond to this interview. We would sincerely like to ask your cooperation so that this survey could produce valuable research data. Your answers will be kept strictly confidential and anonymous. We would really appreciate if you take time to answer every question in this survey.

(Web) <http://src.skku.edu>

The Survey Research Center (SRC) at Sungkyunkwan University is currently conducting the Korean General Social Survey (KGSS), an annual national sample survey funded by Korea Research Foundation (KRF). The purpose of this survey is to collect primary social data that can be widely used in cross-national comparative studies. Most Questions in this survey concern your opinions on some of the basic political, economic, and social phenomena. The survey also includes your opinion of religion, the 2008 modular topic of the International Social Survey Programme (ISSP), in which 47 countries all over the world are currently participating.

Since we have selected our respondents in a way to best represent the people in this country, the results of this survey are likely to lose representativeness if you do not respond to this interview. We would sincerely like to ask your cooperation so that this survey could produce valuable research data. Your answers will be kept strictly confidential and anonymous. We would really appreciate if you take time to answer every question in this survey.

The Survey Research Center (SRC) in the Sungkyunkwan University is currently conducting the Korean General Social Survey (KGSS), an annual national sample survey funded by Korea Research Foundation (KRF). The purpose of this survey is to collect primary social data that can be widely used in cross-national comparative studies. Most Questions in this survey concern your opinions on some of the basic political, economic, and social phenomena. The survey also includes your opinion about social inequality, the 2009 modular topic of the International Social Survey Programme (ISSP) that is participated by 47 countries all over the world.

Since we tried to select our respondents in a way to best represent the people in this country, the results of this survey are likely to lose the representativeness if you fail to respond to this interview. We sincerely would like to ask your cooperation so that this survey could produce valuable research data. Your answers will be kept strictly confidential and anonymous, of course. We would really appreciate it if you take time to answer every question in this survey.

2010 Korean General Social Survey

Survey Research Center, Sungkyunkwan University

53-3 Myungryun-Dong, Jongno-Ku, Seoul 110-745, South Korea

(Tel.) +82-2-760-1270 (Fax) +82-2-744-6169 (E-mail) srcgss@skku.edu (Web) <http://src.skku.edu>

The Survey Research Center (SRC) in the Sungkyunkwan University is currently conducting the Korean General Social Survey (KGSS), an annual national sample survey funded by the National Research Foundation of Korea (NRF). The purpose of this survey is to collect primary social data that can be widely used in cross-national comparative studies. Most Questions in this survey concern your opinions on some of the basic political, economic, and social phenomena. The survey also includes your opinion about two modular topics: environment, the 2010 module of the International Social Survey Programme (ISSP) that is participated by 47 countries all over the world; health, the 2010 module of the East Asian Social Survey (EASS) that is participated by 4 countries (Korea, China, Japan, and Taiwan) in East Asia.

Since we tried to select our respondents in a way to best represent the people in this country, the results of this survey are likely to lose the representativeness if you fail to respond to this interview. We sincerely would like to ask your cooperation so that this survey could produce valuable research data. Your answers will be kept strictly confidential and anonymous, of course. We would really appreciate it if you take time to answer every question in this survey.

June, 2010

2011 Korean General Social Survey

[2011 KGSS]

Survey Research Center, Sungkyunkwan University

53-3 Myungryun-Dong, Jongno-Ku, Seoul 110-745, South Korea

(Tel.) +82-2-760-1270 (Fax) +82-2-744-6169 (E-mail) srckgss@skku.edu (Web) <http://src.skku.edu>

The Survey Research Center (SRC) in the Sungkyunkwan University is currently conducting the Korean General Social Survey (KGSS), an annual national sample survey funded by the National Research Foundation of Korea (NRF). The purpose of this survey is to collect primary social data that can be widely used in cross-national comparative studies. Most Questions in this survey concern your opinions on some of the basic political, economic, and social phenomena. The survey also includes your opinion concerning a few modular topics: <Health>, the 2011 designated module of the International Social Survey Programme (ISSP) participated by 50 countries all around the world, and three contract modules of human rights, ageism, and citizenship behaviors in Korea.

Since we tried to select our respondents in a way to best represent the people in this country, the results of this survey are likely to lose the representativeness if you fail to respond to this interview request. We sincerely would like to ask your sincere cooperation so that this survey could produce valuable research data. Your answers will be kept strictly confidential and anonymous, of course. We would really appreciate it if you take time to answer every question in this survey.

June, 2011

Sang-Wook Kim, Prof.

Director, Survey Research Center, Sungkyunkwan Univ.

2012 Korean General Social Survey

Survey Research Center, Sungkyunkwan University

53-3 Myungryun-Dong, Jongno-Ku, Seoul 110-745, South Korea

(Tel.) +82-2-760-1270 (Fax) +82-2-744-6169 (E-mail) srcgoss@skku.edu (Web) <http://src.skku.edu>

The Survey Research Center (SRC) in the Sungkyunkwan University is currently conducting the Korean General Social Survey (KGSS), an annual national sample survey funded by the National Research Foundation of Korea (NRF). The purpose of this survey is to collect primary social data that can be widely used in cross-national comparative studies. Most Questions in this survey concern your opinions on some of the basic political, economic, and social phenomena. The survey also includes your opinion concerning two modular topics: < Family & Changing Gender Roles IV >, the 2012 designated module of the International Social Survey Programme (ISSP) that is participated by 50 countries all around the world; < Network Social Capital >, the 2012 module of the East Asian Social Survey (EASS) that is participated by 4 countries in East Asia (Korea, China, Japan, and Taiwan).

Since we tried to select our respondents in a way to best represent the people in this country, the results of this survey are likely to lose the representativeness if you fail to respond to this interview request. We sincerely would like to ask your sincere cooperation so that this survey could produce valuable research data. Your answers will be kept strictly confidential and anonymous, of course. We would really appreciate it if you take time to answer every question in this survey.

June, 2012

Sang-Wook Kim, Prof.

Director, Survey Research Center, Sungkyunkwan Univ.

2013 Korean General Social Survey

Survey Research Center, Sungkyunkwan University

53-3 Myungryun-Dong, Jongno-Ku, Seoul 110-745, South Korea

(Tel.) +82-2-760-1270 (Fax) +82-2-744-6169 (E-mail) srcgss@skku.edu (Web) http://src.skku.edu

The Survey Research Center (SRC) in the Sungkyunkwan University is currently conducting the Korean General Social Survey (KGSS), an annual national sample survey funded by the National Research Foundation of Korea (NRF). The purpose of this survey is to collect primary social data that can be widely used in cross-national comparative studies. Most Questions in this survey concern your opinions on some of the basic political, economic, and social phenomena. The survey also includes your opinion concerning two modular topics: < Family & Changing Gender Roles IV >, the 2012 designated module of the International Social Survey Programme (ISSP) that is participated by 50 countries all around the world; < Network Social Capital >, the 2012 module of the East Asian Social Survey (EASS) that is participated by 4 countries in East Asia (Korea, China, Japan, and Taiwan).

Since we tried to select our respondents in a way to best represent the people in this country, the results of this survey are likely to lose the representativeness if you fail to respond to this interview request. We sincerely would like to ask your sincere cooperation so that this survey could produce valuable research data. Your answers will be kept strictly confidential and anonymous, of course. We would really appreciate it if you take time to answer every question in this survey.

2014 Korean General Social Survey

[2014 KGSS]

Survey Research Center, Sungkyunkwan University

53-3 Myungryun-Dong, Jongno-Ku, Seoul 110-745, South Korea

(Tel.) +82-2-760-1270 (Fax) +82-2-744-6169 (E-mail) srckgss@skku.edu (Web) <http://src.skku.edu>

The Survey Research Center (SRC) in the Sungkyunkwan University is currently conducting the Korean General Social Survey (KGSS), an annual national sample survey funded by the National Research Foundation of Korea (NRF). The purpose of this survey is to collect primary social data that can be widely used in cross-national comparative studies. Most Questions in this survey concern your opinions on some of the basic political, economic, and social phenomena. The survey also includes your opinion concerning two modular topics: < Family & Changing Gender Roles IV >, the 2012 designated module of the International Social Survey Programme (ISSP) that is participated by 50 countries all around the world; < Network Social Capital >, the 2012 module of the East Asian Social Survey (EASS) that is participated by 4 countries in East Asia (Korea, China, Japan, and Taiwan).

Since we tried to select our respondents in a way to best represent the people in this country, the results of this survey are likely to lose the representativeness if you fail to respond to this interview request. We sincerely would like to ask your sincere cooperation so that this survey could produce valuable research data. Your answers will be kept strictly confidential and anonymous, of course. We would really appreciate it if you take time to answer every question in this survey.

June, 2014

Sang-Wook Kim, Prof.

Director, Survey Research Center, Sungkyunkwan Univ.

2016 Korean General Social Survey [2016 KGSS] Type A

Survey Research Center, Sungkyunkwan University

53-3 Myungryun-Dong, Jongno-Ku, Seoul 110-745, South Korea
(Tel.) +82-2-760-1270 (E-mail) srckgss@skku.edu (Web) <http://src.skku.edu>

This research is conducted with the financial support of Sungkyunkwan University, the Institute for Social Development and Policy Research at Seoul National University, the Korea Institute for Health and Social Affairs, and the Korea Institute of Public Administration.

Greetings

We, the Survey Research Center (SRC) at Sungkyunkwan University, have been conducting the Korea General Social Survey (KGSS) since 2003. This year, professors and students from 37 universities throughout Korea are co-participating in this research. We are trying to build up the data to be used for the comprehensive understanding of Korean society and global studies comparing many countries. The research is composed of questions regarding major political, economic, and social issues of Korea, the International Social Survey (ISSP) questions conducted by 48 countries around the world, and questions from the East Asian Social Survey (EASS).

The respondents were methodically selected so that the sample can accurately represent the Korean population. Our student interviewers visited you because you were selected as a respondent. Please find time in your busy schedule and participate in this study. Your responses will be strictly confidential.

Thank you.

(Tel.) +82-2-760-1270 (E-mail) srckgss@skku.edu (Web) <http://src.skku.edu>

This research is conducted with the financial support of Sungkyunkwan University, the Institute for Social Development and Policy Research at Seoul National University, the Korea Institute for Health and Social Affairs, and the Korea Institute of Public Administration.

Greetings

We, the Survey Research Center (SRC) at Sungkyunkwan University, have been conducting the Korea General Social Survey (KGSS) since 2003. This year, professors and students from 37 universities throughout Korea are co-participating in this research. We are trying to build up the data to be used for the comprehensive understanding of Korean society and global studies comparing many countries. The research is composed of questions regarding major political, economic, and social issues of Korea, the International Social Survey (ISSP) questions conducted by 48 countries around the world, and questions from the East Asian Social Survey (EASS).

The respondents were methodically selected so that the sample can accurately represent the Korean population. Our student interviewers visited you because you were selected as a respondent. Please find time in your busy schedule and participate in this study. Your responses will be strictly confidential.

Thank you.

(Tel.) +82-2-760-1270 (E-mail) kgss.src@gmail.com (Web) <http://kgss.skku.edu>

This research is conducted with the financial support of Sungkyunkwan University, the Institute for Social Development and Policy Research at Seoul National University, the Korea Institute for Health and Social Affairs, and the Korea Institute of Public Administration.

Greetings

We, the Survey Research Center (SRC) at Sungkyunkwan University, have been conducting the Korea General Social Survey (KGSS) since 2003. This year, professors and students from 45 universities throughout Korea are co-participating in this research. We are trying to build up the data to be used for the comprehensive understanding of Korean society and global studies comparing many countries. The research is composed of questions regarding major political, economic, and social issues of Korea, the International Social Survey (ISSP) questions conducted by 45 countries around the world, and questions from the East Asian Social Survey (EASS).

The respondents were methodically selected so that the sample can accurately represent the Korean population. Our student interviewers visited you because you were selected as a respondent. Please find time in your busy schedule and participate in this study. Your responses will be strictly confidential.

Thank you.

(Tel.) +82-2-760-1270 (E-mail) kgss.src@gmail.com (Web) <http://kgss.skku.edu>

This research is conducted with the financial support of Sungkyunkwan University, the Institute for Social Development and Policy Research at Seoul National University, the Korea Institute for Health and Social Affairs, and the Korea Institute of Public Administration.

Greetings

We, the Survey Research Center (SRC) at Sungkyunkwan University, have been conducting the Korea General Social Survey (KGSS) since 2003. This year, professors and students from 45 universities throughout Korea are co-participating in this research. We are trying to build up the data to be used for the comprehensive understanding of Korean society and global studies comparing many countries. The research is composed of questions regarding major political, economic, and social issues of Korea, the International Social Survey (ISSP) questions conducted by 45 countries around the world, and questions from the East Asian Social Survey (EASS).

The respondents were methodically selected so that the sample can accurately represent the Korean population. Our student interviewers visited you because you were selected as a respondent. Please find time in your busy schedule and participate in this study. Your responses will be strictly confidential.

Thank you.

(Tel.) +82-2-760-1270 (E-mail) kgss.src@gmail.com (Web) <http://kgss.skku.edu>

This research is conducted with the financial support of Sungkyunkwan University, the Institute for Social Development and Policy Research at Seoul National University, the Korea Institute for Health and Social Affairs, and the Korea Institute of Public Administration.

Greetings

We, the Survey Research Center (SRC) at Sungkyunkwan University, have been conducting the Korea General Social Survey (KGSS) since 2003. This year, professors and students from 45 universities throughout Korea are co-participating in this research. We are trying to build up the data to be used for a comprehensive understanding of Korean society and global studies comparing many countries. The research is composed of questions regarding major political, economic, and social issues in Korea, the International Social Survey (ISSP) questions conducted by 45 countries worldwide, and questions from the East Asian Social Survey (EASS).

The respondents were methodically selected so that the sample could accurately represent the Korean population. Our student interviewers visited you because you were selected as a respondent. Please find time in your busy schedule and participate in this study. Your responses will be strictly confidential.

Thank you.

2021 Korean General Social Survey

[2021 KGSS] Type B

Survey Research Center, Sungkyunkwan University

25-2, Seonggyungwan-ro, Jongno-gu, Seoul, Republic of Korea (03063)
(Tel.) +82-2-760-1270 (E-mail) kgss.src@gmail.com (Web) <http://kgss.skku.edu>

This research is conducted with the financial support of Sungkyunkwan University, the Institute for Social Development and Policy Research at Seoul National University, the Korea Institute for Health and Social Affairs, and the Korea Institute of Public Administration.

Greetings

We, the Survey Research Center (SRC) at Sungkyunkwan University, have been conducting the Korea General Social Survey (KGSS) since 2003. This year, professors and students from 45 universities throughout Korea are co-participating in this research. We are trying to build up the data to be used for a comprehensive understanding of Korean society and global studies comparing many countries. The research is composed of questions regarding major political, economic, and social issues in Korea, the International Social Survey (ISSP) questions conducted by 45 countries worldwide, and questions from the East Asian Social Survey (EASS).

The respondents were methodically selected so that the sample could accurately represent the Korean population. Our student interviewers visited you because you were selected as a respondent. Please find time in your busy schedule and participate in this study. Your responses will be strictly confidential.

Thank you.

2023 Korean General Social Survey

[2023 KGSS] Type A

Survey Research Center, Sungkyunkwan University

25-2, Seonggyungwan-ro, Jongno-gu, Seoul, Republic of Korea (03063)
 (Tel.) + 82-2-760-1270 (Fax) + 82-050-2302-0102
 (E-mail) kgss.src@gmail.com (Web) <http://kgss.skku.edu>

Greetings

The Survey Research Center (SRC) at Sungkyunkwan University has been conducting the Korea General Social Survey (KGSS) since 2003. To date, the survey has engaged 20,841 respondents. It has been enormously supported by the collaboration of 116 professors and 2,797 students from universities across the country from 2003 to 2018. The KGSS has become an indispensable resource for studying Korean society domestically and internationally. It aims to provide comprehensive data for understanding Korean society and facilitating global comparative studies.

The 2023 KGSS includes questions on significant political, economic, and social issues in Korea, aspects of national identity from the International Social Survey (ISSP) conducted across 43 countries, a social network module from the East Asian Social Survey (EASS) involving four East Asian nations, and personal and social well-being module conducted in the European Social Survey (ESS).

Respondents are meticulously selected to ensure the sample accurately represents the Korean population. Our interviewers have approached you because you have been chosen as a respondent for this important study. Please make time in your busy schedule to participate. I would like to let you know that your responses will be treated with the utmost confidentiality.

Thank you.

2023 Korean General Social Survey [2023 KGSS] Type B

Survey Research Center, Sungkyunkwan University

25-2, Seonggyungwan-ro, Jongno-gu, Seoul, Republic of Korea (03063)
 (Tel.) + 82-2-760-1270 (Fax) + 82-050-2302-0102
 (E-mail) kgss.src@gmail.com (Web) <http://kgss.skku.edu>

Greetings

The Survey Research Center (SRC) at Sungkyunkwan University has been conducting the Korea General Social Survey (KGSS) since 2003. To date, the survey has engaged 20,841 respondents. It has been enormously supported by the collaboration of 116 professors and 2,797 students from universities across the country from 2003 to 2018. The KGSS has become an indispensable resource for studying Korean society domestically and internationally. It aims to provide comprehensive data for understanding Korean society and facilitating global comparative studies.

The 2023 KGSS includes questions on significant political, economic, and social issues in Korea, aspects of national identity from the International Social Survey (ISSP) conducted across 43 countries, a social network module from the East Asian Social Survey (EASS) involving four East Asian nations, and personal and social well-being module conducted in the European Social Survey (ESS).

Respondents are meticulously selected to ensure the sample accurately represents the Korean population. Our interviewers have approached you because you have been chosen as a respondent for this important study. Please make time in your busy schedule to participate. I would like to let you know that your responses will be treated with the utmost confidentiality.

Thank you.
